1 The purpose of the retention Policy

The retention policy lays down the length of time which the record needs to be retained and the action which should be taken when it is of no further administrative use.

Members of staff are expected to manage their current record keeping systems using the retention schedule and to take account of the different kinds of retention periods when they are creating new record keeping systems.

The retention schedule refers to all information, regardless of the media in which they are stored

2 What to do with records once they have reached the end of their administrative life

2a Destruction of records

Where records have been identified for destruction they should be disposed of in an appropriate way. All records containing personal information, or sensitive policy information should be shredded or burnt before disposal

2b Transfer of records to the Archives

Where records have been identified as being worthy of permanent preservation, arrangements should be made to transfer the records to the Archives

2c Transfer of information to other media

Where lengthy retention periods have been allocated to records, members of staff may wish to consider converting paper records to other media such as digital media. The lifespan of the media and the ability to migrate data where necessary should always be considered
